

# WELCOME TO ST. JOSEPH HOSPITAL'S EMERGENCY DEPARTMENT

As a patient in our Emergency Department, your well being is our primary concern.

While the circumstances that brought you here may have been stressful, we want to make sure your visit to the Emergency Department is as comfortable as possible.

This guide is intended to answer questions you may have about the care you or your loved one will receive here today.

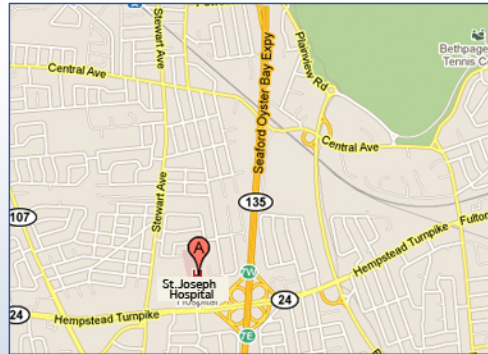

If you need information or feel you need to speak with someone in a more private setting, please ask.

The Emergency Department also has access to pastoral care should your family require religious or spiritual support. Social workers are available to assist you with any personal concerns you may have.

*This sheet is designed for patient information purposes only and should not be substituted for medical attention.*
